Zenith Bank PLC has released its group financial results for the half year ended June 2025. The Group's performance and strategic progress reinforce its position as a leading financial institution across Africa, highlighting its resilience in the face of a transitioning macroeconomic environment.

The Bank achieved a 20% year-on-year (YoY) growth in gross earnings from NGN2.1 trillion reported in the previous year to NGN2.5 trillion in H1 2025. This was driven by a strong YoY growth of 60% in interest income from NGN1.1 trillion to NGN1.8 trillion in H1 2025. The growth in interest income was propelled by a high yield environment and an increase in the Bank's risk asset portfolio.

The Group Managing Director/CEO, Dame Dr. Adaora Umeoji, OON, in her comments on the financial results stated: "Our H1 2025 performance reaffirms the strength and resilience of the Zenith brand. In the face of elevated provisioning due to the industry-wide wind-down of the CBN forbearance regime, our total asset quality has recorded a marked improvement while our balance sheet remains strong, liquid and well positioned to capture emerging opportunities across our core markets".

The Group's profit before tax stood at \(\text{\text{\text{4626}}}\) billion in H1 2025 as against NGN727 billion in H1 2024. Profit after tax also moderated to NGN532 billion in the same period, despite the impact of the substantial loan provisioning required for a one-off write-off of forbearance loans. Earnings per share (EPS) came in at NGN12.95 in the period under review. Net interest income significantly increased by 89% YoY from NGN715 billion to NGN1.4 trillion, as the Bank was able to maintain an optimal spread between the pricing of its risk assets and funding sources.

Customer deposits grew by 7% from NGN22 trillion in December 2024 to NGN23 trillion in June 2025. Gross loans closed at NGN10.2 trillion as at June 2025 compared to the NGN11 trillion as at December 2024 due to the write-off of forbearance loans. In spite of this, the Bank's total assets grew by 3% from NGN30 trillion as at December 2024 to NGN31 trillion as at June 2025.

Return on Average Equity (ROAE) and Return on Average Assets (ROAA) stood at 24.8% and 3.5%, respectively as at June 2025. The Group's cost to income grew to 48.2% due to higher impairment charge and sustained inflationary pressures. Our Non-Performing Loan (NPL) ratio declined to 3.1% in June 2025 down from 4.7% in December 2024. Our capital adequacy and liquidity ratios remain strong at 26% and 69% respectively in the current period. These prudential ratios are well above regulatory thresholds.

Our performance is in line with broader global sustainability objectives, and we remain deeply committed to continuing to integrate sustainability and ESG (Environmental, Social, and Governance) principles into our product offerings and operations. We will continue to translate our financial strength into long term value for all stakeholders. Our product offerings that support the growth of small and medium enterprises (SMEs) and women entrepreneurs with access to capital, training, mentoring and markets remain a core part of our focus. We are dedicated to ensuring gender parity in our workforce. Furthermore, our loan portfolio has built-in, multi-tiered processes that ensure compliance with ESG principles and guidelines. We have also adopted cleaner energy sources in our business operations in line with the Bank's responsible banking philosophy and adherence to environmental sustainability.

In line with our commitment to our shareholders, and our ability to deliver long term profitability, the Bank has proposed an interim dividend of NGN1.25 per ordinary share, up from the NGN1.00 paid out as interim dividend in 2024.

In conclusion, the Group Managing Director/CEO stated: "Our strong H1 2025 results underscore the creativity and innovation of our unicorn workforce in a dynamic operating environment. With our strong positive trajectory, we are confident of sustained performance in H2 2025 and beyond, as we pursue our growth objectives through innovation with our new robust digital infrastructure and expanding our global footprints. We remain committed to upholding the highest standard of corporate governance, regulatory compliance, as we deliver superior value to our stakeholders".
